

The Instituto Javier de Benito, a centre for aesthetic surgery and medicine and for any procedure involving beauty care, combines the most advanced medical and surgical leading edge with the best human team. It is also located in one of the most prestigious areas in the city of Barcelona, in the heart of Diagonal avenue.

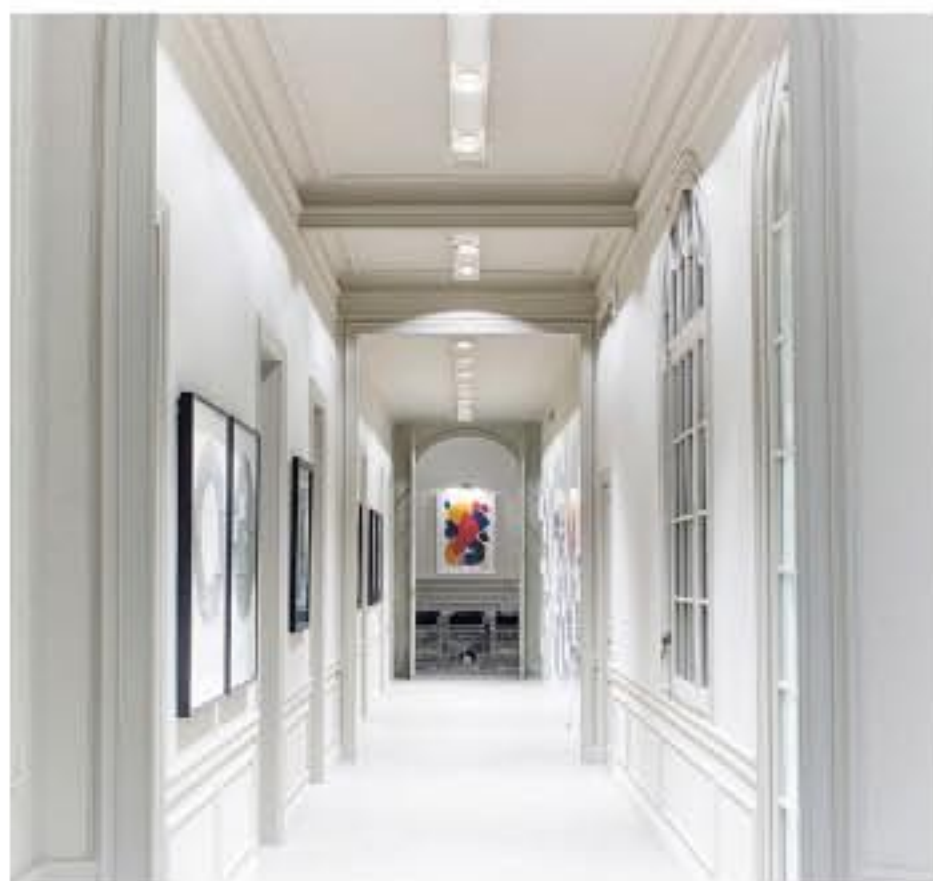

Equipped with the most advanced material and medical and research systems, Instituto Javier de Benito emanates an air of comfort, relaxation and discretion for its patients. Dr de Benito directs a solid human team consisting of excellent specialists in different techniques. They thus provide the best results in an atmosphere in which the patient feels comfortable, in the secure knowledge of being in the best hands. Javier de Benito, the driving force behind an institute considered to be among the 10 best worldwide, boasts extensive and comprehensive professional experience.

It should be emphasised that Instituto Javier de Benito is at the forefront of innovation and training, organising and moderating congresses each year as well as having a pioneering medical team in a variety of techniques and aesthetic treatments.

Dr de Benito is the most internationally renowned surgeon and a member of the most widely recognised international surgery associations in the medical world. He has extensive experience as guest professor at the major congresses on new techniques and novelties and also publishes numerous scientific dissemination articles.

The specialists at the Institute have always been at the cutting edge of aesthetic surgery and are committed to new, less aggressive surgical treatments. Now at the prestigious Tacha Beauty in Madrid and BelleFontaine in Moscow as well.
